Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 through 65 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because it is unclear whether the structures recited in lines 1-3 of the claim comprise a part of the claimed invention. Lines 1-4 appear to define the environment of intended use, but the structural elements of these lines are claimed in combination with various other elements of a support structure in lines 4-12 of claim 1. Accordingly, it is unclear what combination of elements comprises the dispenser.

Claim 22 is indefinite because it is unclear what combination of elements comprises the dispenser. Lines 1-5 recite elements which appear to be a part of the dispenser, however; beginning at the end of line 5 the recitation "a dispenser..." appears to set forth elements for the dispenser. Accordingly, it is unclear what elements comprise the claimed dispenser.

Claim 43 is indefinite because it is unclear whether the structures recited in lines 1-4 of the claim comprise a part of the claimed invention. Lines 1-4 appear to define the environment of intended use, but the structural elements of these lines are claimed in combination with various other elements of a support structure in the remainder of claim 43. Accordingly, it is not clearly understood what combination of elements comprises the dispenser.

Art Unit: 3653

Claim 45 is indefinite because it is unclear what combination of elements comprises the dispenser. Lines 1-5 recite elements which appear to be a part of the dispenser, however; beginning at the end of line 5 the recitation "a dispenser..." appears to set forth elements for the dispenser. Accordingly, it is unclear what elements comprise the claimed dispenser.

Claim 49 is indefinite because it is unclear whether the structures recited in lines 1-3 of the claim comprise a part of the claimed invention. Lines 1-3 appear to define the environment of intended use, but the structural elements of these lines are claimed in combination with various other elements of a support structure in the remainder of claim 49. Accordingly, it is unclear what combination of elements comprises the dispenser.

3. Claims 66 through 82 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Bollinger whose telephone number is 571-272-6935. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
